

# ASM | REAL TIME ACCOUNTING

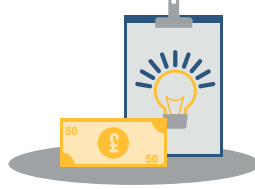

## WHAT IS REAL TIME ACCOUNTING?

Internet based accountancy software

Up to date accounts and performance information at the click of a button

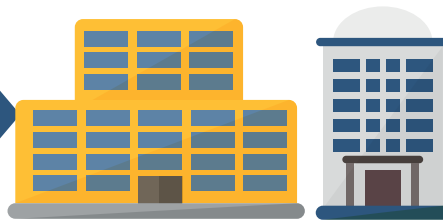

Instant and more efficient cash flow management

Real time professional advice

## WHAT TYPE OF BUSINESS IS IT SUITABLE FOR?

Small and medium sized businesses

## WILL IT CHANGE HOW I DO BUSINESS?

Access and input from anywhere and at any time

Better and more informed decision making

Quicker reaction to business needs

Tailored add-ons and integrations available

## WHAT ARE THE BENEFITS?

Simple & straightforward to use

Saves you time by reducing data entry – live bank feeds etc

Up to date information

Helps your business stay compliant

Fixed monthly fee – no hidden costs

Secure data centre

Continually backed up – never lose data again!

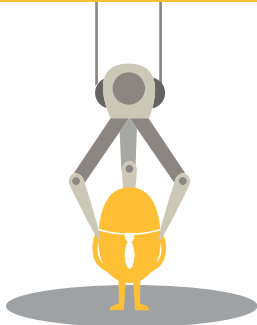

## IS IT SECURE?

## WHAT DO I HAVE TO DO?

Speak to your local ASM Accountant

Decide what you want from your accounting system – what is important to you

It is important to get the right package and set it up correctly

Start getting the service tailored to your businesses needs
